

POWER LINE[®] U.S.A.

Gas Engine • Diesel Heated
HOT/COLD/STEAM PRESSURE WASHER
7GPM @ 4,000 PSI 2-GUN SKID UNIT

PREMIUM INDUSTRIAL GRADE 23 HP SKID UNIT

This Power Wash Skid Unit is engineered for constant duty! Featuring hot/cold or steam operation and two guns for 7GPM @ 4,000 psi with no loss of pressure, the Power Line Industrial HD23 Power Wash Skid is built bullet proof and tough for your best return on your investment. Featuring premium belt driven pumps and a super efficient heater coil that saves fuel and generates exceptional cleaning power to clean nearly any job, this skid unit is perfect for the budget minded contractor that wants to look and be super professional!!

Exclusive Engineering Features

Dual Filter Intake System

We pre-plumb the pump intake so you can draw water from a tank or garden hose, and we include a dual filter system, one 80 mesh and the other 50 mesh, to protect the pump. **This has proven to dramatically increase the pump life and reduce down time.**

Features

- Hot/Cold or Steam Operation
- "TBS" - Total Belt Driven for Ultimate Reliability
- Exclusive "Pump Saver" Engineering
- Premium Cogged Belts for Long Life
- Full Size Battery Box
- Full Controls - Thermostat/Hour Meter/Nozzle Holder/Gun Holder

Includes "Monster Accessory Package"

- Extra Set of Nozzles - 8 Total
- Turbo Nozzle
- 100' Total of High Pressure Steel Braided Hose
- "Down-Stream" Chemical Injector System (This chemical injection system bypasses the coil and pump and allows you to apply detergents under low pressure saving you heating coil and pump)
- 100' of HD Fill Hose
- Extra Burner Fuel Filter
- Dual Lance Wand and Standard Wand and Gun
- 5 Gal Drum-Pak of our Exclusive "Power Plus" Degreaser

PROUDLY MANUFACTURED IN

Pump Saver System

We also engineer systems with our "pump saver system." When trigger is released, the bypass water re-circulates back to water tank. **This keeps the head of the pump cool, extending its life.**

Complete Belt Driven System

All components are belt driven. The pump, generator are Dual-V-Belt Driven. Belt driven reduces vibration and allows the pump to run at 1/2 RPM. **This extends operational life.**

"Over 30 years of Manufacturing Premium Quality Equipment in Service Worldwide."
