MODEL	MOTOR	BURNER	OUTPUT***
PROPACK1-ENVTA23-74000	23HP Vanguard or Honda GX690	115 Volt	7 GPM @ 4,000 PSI (+/- 5%)

*** Output is determined by elevation, pump conditions and nozzle size.

Premium Quality = More Years of Service = BEST RETURN ON INVESTMENT

The Environmental Power Washer Trailer Pro Package I Monster Upgrade Package for This Year: includes a vacuum system that features:

- 4500 Watt Generator
- Vacuberm
- 50 Feet Vacuum Hose
- Foot Scupper Pick Up Unit
- Aluminum Vacuum Wand
- Heavy Duty Rubberized Drain Cover Pad
- 30 Gallon Drum mounted on a Heavy Duty Roll Cart
- HD 115v auto pump-out system
- Internal filter for initial soils separation
- Extra Large Burner System
- Upgraded Engine – 23HP Vanguard by Toyota
- Upgraded Premium Pump – 7GPM @ 4,000 PSI (+/- 5%)
- Full Dual Gun Operation
- Premium Stainless Steel Hose Reels
- Premium Spun Aluminum “Ground Pounder” Surface Cleaner with Side Wash Gun
- 16 S.S. Nozzles Total

“Over 30 years of Manufacturing Premium Quality Equipment in Service Worldwide.”

EXCLUSIVE ENGINEERING FEATURES

Dual Filter Intake System

We pre-plumb the pump intake so you can draw water from a tank or garden hose, and we include a dual filter system, one 80 mesh and the other 50 mesh, to protect the pump. **This has proven to dramatically increase the pump life and reduce down time.**

Pump Saver System

We also engineer systems with our “pump saver system.” When trigger is released, the bypass water re-circulates back to water tank. **This keeps the head of the pump cool, extending its life.**

Complete Belt Driven System

All components are belt driven. The pump, generator are Dual-V-Belt Driven. Belt driven reduces vibration and allows the pump to run at 1/2 RPM. **This extends operational life.**

Antifreeze System

We engineer our trailer units with our quick antifreeze system, where you close one ball valve and open the antifreeze ball valve - then run the machine for 30 seconds and the entire system is antifreezed - to start the machine - then recapture the antifreeze in the antifreeze tank. We also incorporate our cool pump system that keeps the head of the pump cool for long life

TRAILER DESCRIPTION: (your choice of red, blue, yellow, or black)

- Rugged, compact, and specially engineered to haul the equipment and water load. Leaf Spring Axles cushion and distribute the weight for easy towing.
- HD Enamel Paint
- 4' x 12' Diamond Plate Steel Deck
- Integrated steel tank rack to hold water
- Tandem Axle – Each axle 3500 lb rated.
- Dual Axle Brake – DOT compliant in all states and Canada
- Integrated sign holder – for sides and rear signage
- Integrated Gun Holder
- Chrome Wheels

POWER UNIT SPECIFICATIONS:

- **Motor:** Honda GX690 or 23 HP Vanguard Engine – Made by Toyota
- **Output:** 7 GPM @ 4,000 PSI (+/- 5%), fully adjustable pressure
- **Pump:** General Ceramic Plunger Pump
- **Frame:** Powder coated, uni-body built reinforced structural supports for added “over the road” shock support for coil support.
- **Motor and Pump Power Plate:** Pre-assembled “Power-Plate” engineered to accept a variety of motor options. This enables the operator to change/service any component (motor, belt, generator, pump support brackets) in minutes – not hours.
- **Burner:** Super high efficiency Beckett Burner / 115 volt power
- **Generator:** Winco 115 volt, 2000 watt
- **Fuel Tanks:** 18 gallons diesel, 12 gallons gas
- **Horizontal Coil System:** Features a new helical style horizontal engineering design that is super fuel efficient with super fast heat rise. Cold rolled continuous schedule 80 coil. The horizontal coil is much easier to support for “over the road” transportation vs. vertical coils.
- **Stainless Steel Coil Cover:** Will not rust, looks great for years
- **Thermostat:** Saves fuel when high temp is not necessary
- **Hour Meter:** For service intervals
- **Easy Pressure Control:** Front mounted to control flow and heat rise
